

Address Lettering - Consumer Application Instructions

- ① For proper lettering application and long life, thoroughly clean the area of the mailbox on which you intend to apply the lettering before beginning. Use household denatured alcohol or mild glass cleaner and a clean rag.

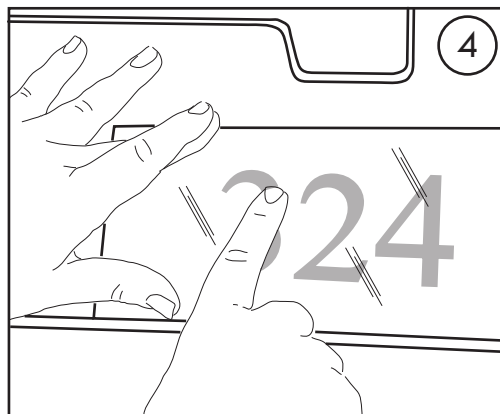

Peel the masking and address characters off the backing. Make sure all characters peel off the backing and they are all attached to the sticky side of the masking.

TAKE EXTRA CARE IN THIS STEP: Make sure you clean the mailbox area on which you intend to apply the numbers. If the surface is not clean, the life of the numbers will be compromised.

Position the mask with the characters at the desired location on the mailbox. To ensure a level application, align the characters with some part of your mailbox, such as the bottom edge or decorative embossing. Be careful not to apply the characters with wrinkles or bubbles.

Using your finger, firmly rub the characters through the mask sheet and onto the mailbox.

Carefully and slowly remove the masking from the mailbox. Your address characters will remain on the mailbox.

If you have any questions about how to apply, please call us directly at (800) 464-7491 or contact us at www.architecturalmailboxes.com.
